D2	65.40	76.2	92.5	116.40
D3	50.40	64.5	79.5	103.40

Butterfly Valve

Dimensions	50mm	65mm	80mm	100mm
D	62.70	143.3	164.7	194.30
H	165.00	171.8	179.8	180.00
H1	125.00	136.8	141.8	125.00
H2	55.00	71.7	82.4	110.00
L	23.00	231.3	231.3	235.00
C	100.10	Φ127	Φ148	172.10

Features:

- Lightweight, easy to install.
- One-piece body made of uPVC.
- Disc designed to ensure low torque and low pressure loss.
- Rust prevention is ensured for all main parts, such as the disc and shaft, as well as small parts like bolts and washers, which are made of high-grade stainless steel for superior corrosion resistance.
- Lock plate: Provided with throttling notches at every 15° up to 90° for balancing or shut-off service, the lever can be padlocked in any notch position.
- It has an EPDM rubber seal for good sealing performance.

Applications:

- Ideal application for flow control in a drip irrigation system.
- It is suitable for piping in a limited space.
- It is used as a control valve for a filtration unit.

Available Sizes:

- 2", 2.5", 3" & 4".
