

Bypass Tee

By Pass Tee

Threaded End

Available Sizes:

- 2", 2.5" & 3".

Features:

- **Multiple Connection Types:**
Available in both Flanged and Threaded connections for quick, adaptable installation.
- **Size Range:**
Offered in 2" (63mm), 2.5" (75mm), and 3" (90mm) diameter options to fit standard pipe sizes.
- **UV & Chemical Resistant:**
Built with high-grade UV-stabilized polymer to withstand harsh sunlight, fertilizers, and agricultural chemicals.
- **High Pressure Tolerant:**
Robust structural design resists pressure surges and prevents fatigue leaks.
- **Low Maintenance:**
Smooth internal surface reduces friction loss and prevents debris clogging.

Applications:

- **Venturi & Fertigation Systems:**
Bypassing main delivery lines for precise fertilizer injection.
- **Filter Assemblies:**
Connecting gravel, disc, or screen filters with dynamic pressure isolation.
- **Agricultural Pipe Networks:**
Splitting mainlines into secondary sub-mains effortlessly.
