

Throttle Valve

Sr. No.	Product
1	Body
2	Threaded Top Cap
3	Disc
4	Handle
5	Cylinder
6	PC Housing
7	Shaft
8	Rubber O-ring
9	Bottom Gasket
10	Sleeve Gasket
11	Handle Screw
12	Teflon Seal O-ring
13	Teflon Seal O-ring
14	Housing Gasket
15	Locking Pin
16	Dowel Pin

The Controlled Various turn throttle valve are designed for specified flow control in piping systems and filtration head units offering durable, corrosion-resistant performance with a visual float indicator for clear throttle visibility.

Specifications:

- **Connection** : 2" / 63mm Female BSP thread
- **Material** : Reinforced Polypropelene
- **Pressure Rating** : PN06

Application:

For accurate flow control for better performance in Ventury Injector operating in Agricultural and landscaping irrigation.
